

Monitor Winter Weather Potential Friday AM

Weather Message of the Day:

- More unsettled weather developing Thursday night into the Christmas Holiday Weekend as a storm system approaches
- Potential for light wintry mix exists Thursday night and Friday morning, especially east of the Highway 65 corridor.
- Chance of thunderstorms Christmas Day and night
- Forecast confidence is increasing
- Stay tuned to the latest weather information through the weekend

Limited Risk for a wintry mix including light freezing rain or drizzle late Thursday night and Friday morning.

Any accumulation will be light but travel conditions could be impacted for the Friday morning commute.
